### DETAILED ACTION

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-21 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by either one of Dahl or FR 2,584,842.

See especially column 8, lines 29-40 and column 10, line 20 to column 11, line 5 of Dahl.

See especially the translation of the French reference.

3. Applicant's Remarks, filed 8-18-03, have been considered, but not found persuasive. Applicant argues in reference to the base claims that Dahl fails to describe a flight control system with "a special reversionary mode" for "entering into a known, safe flight path." It seems clear that the control mode that is used when the primary controls are inoperable (either due to failure or pilot incapacitation) meets all claimed limitation of "entering into a known, safe flight path" since this is the type of flight path upon which the aircraft will be flown by the Air Traffic Control or another, external, pilot. Likewise, FR 2,584,842's disclosure of external control of the aircraft reads over the claimed limitations of "entering into a known, safe flight path." Also, the "complete disengagement of the pilot from" the controls is in response to a "trigger" signal. Applicant has made no arguments to the allowability of the dependent claims, other than that they depend from the base claims, which are argued as being allowable.

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 3644

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to J. Woodrow Eldred whose telephone number is 703-306-4151. The examiner can normally be reached on Monday to Thursday, from 8:00 a.m. to 5:30 p.m..
